

MnS – Shadow project – Assignment for UX resources

Personal Details Form – create a page using the coding standards, styles, architecture of the current application of MnS. It should have the following features/functionality.

Imp: Page should be AA level accessible. Validate HTML/CSS using w3 validators. Validate JS using JS Lint.

1) A form as shown in the **Figure 1**.

Fields:

First Name (Input text)

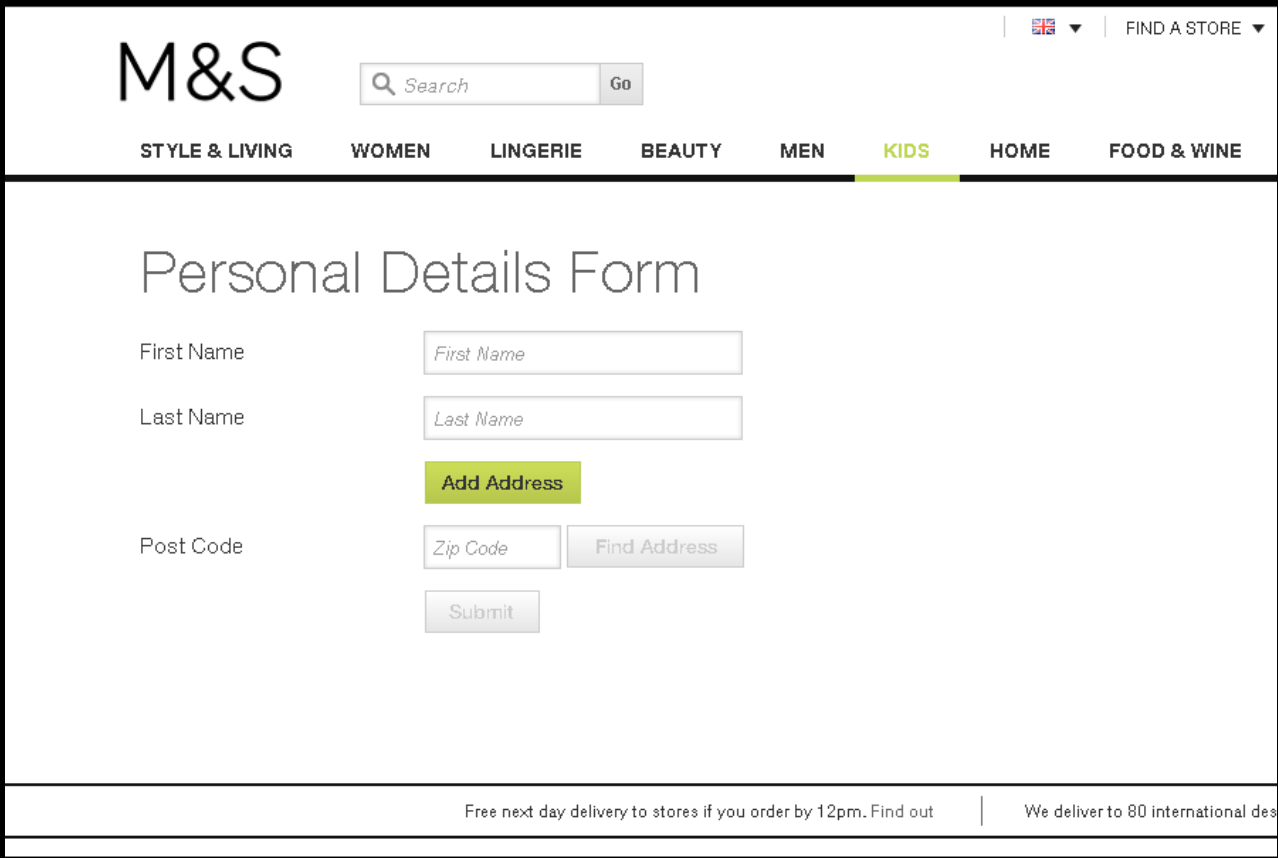

Last Name (Input text)

Add Address (Button)

Zip Code (Input text)

Find Address (Button)

Submit (Button)

The screenshot shows the M&S website's 'Personal Details Form'. The header includes the M&S logo, a search bar with a 'Go' button, and a navigation menu with categories: STYLE & LIVING, WOMEN, LINGERIE, BEAUTY, MEN, KIDS (highlighted), HOME, and FOOD & WINE. The form itself has a title 'Personal Details Form' and contains the following fields and buttons: 'First Name' (text input), 'Last Name' (text input), 'Add Address' (green button), 'Post Code' (text input), 'Find Address' (button), and 'Submit' (button). The footer contains delivery information: 'Free next day delivery to stores if you order by 12pm. Find out' and 'We deliver to 80 international des'.

Figure 1

- 2) Apply validation check on each of the fields as shown in **Figure 2.1**. Refer live site to understand functionanlity.

The screenshot displays the M&S website's 'Personal Details Form'. The form is titled 'Personal Details Form' and is located under the 'KIDS' category in the navigation bar. The form contains several input fields and buttons. A red validation message, 'This field is required.', is shown above the 'First Name' field. The 'First Name' field is highlighted with a red border. The 'Last Name' field is also highlighted with a red border. The 'Post Code' field is highlighted with a red border. The 'Add Address' button is highlighted in green. The 'Find Address' button is highlighted in grey. The 'Submit' button is highlighted in grey. The footer of the page contains the text: 'Free next day delivery to stores if you order by 12pm. Find out' and 'We deliver to 80 international de'.

3) Clicking on **Add Address** button, a popup will be displayed with following fields:

Address (Input text)

City (Input text)

Country (Input text)

Save (Button)

Cancel (Button)

Clicking on **Cancel** and **X** button will hide the popup.

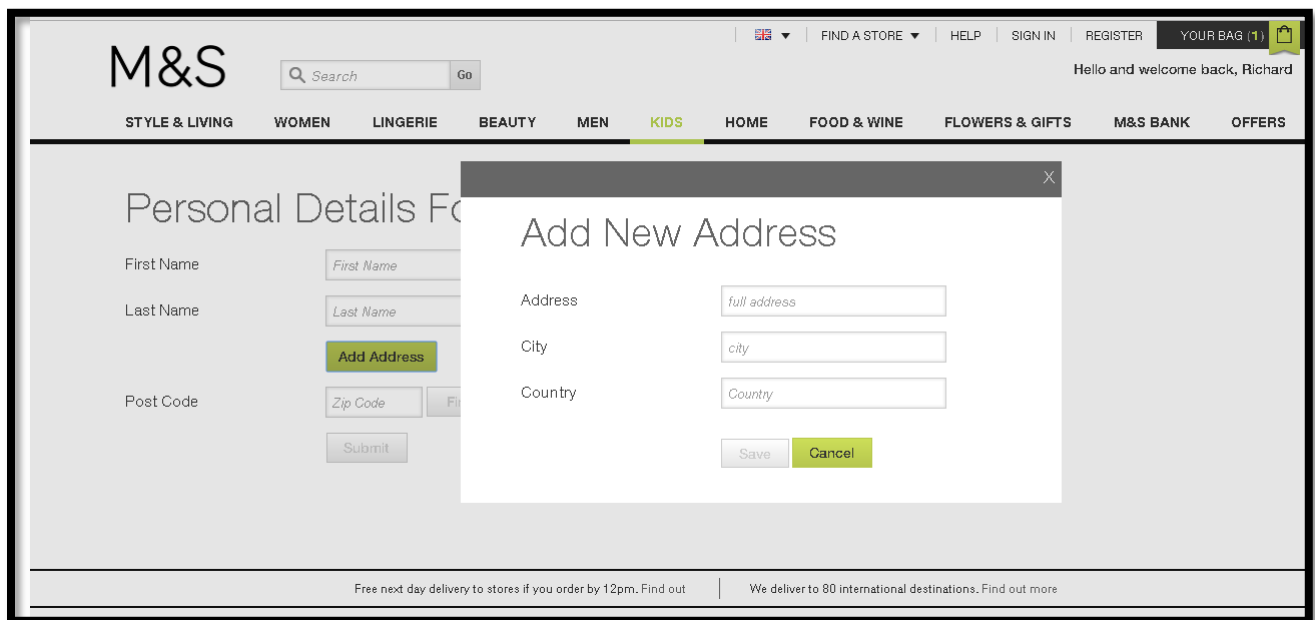

Figure 3

4) Field validations are expected as mentioned earlier.

The screenshot displays the M&S website interface. At the top, the M&S logo is on the left, and navigation links (FIND A STORE, HELP, SIGN IN, REGISTER) and a user greeting (Hello and welcome back, Richard) are on the right. Below the header is a category menu with links like STYLE & LIVING, WOMEN, LINGERIE, BEAUTY, MEN, KIDS, HOME, FOOD & WINE, FLOWERS & GIFTS, M&S BANK, and OFFERS. The main content area shows a 'Personal Details' form on the left and a modal titled 'Add New Address' on the right. The modal contains three input fields: 'Address' (with a red error message 'This field is required.'), 'City', and 'Country'. The 'Address' field has a placeholder 'full address' and the 'City' field has a placeholder 'city'. The modal also includes 'Save' and 'Cancel' buttons at the bottom.

Figure 4

- 5) Save Address – Clicking on **Save** button will show three more fields with same label and data as it was there in popup window. Also **Clear Address** and **Edit Address** buttons will appear.

Clear Address - Clicking this button will clear the current address displayed – **Figure 5**

Edit Address - Clicking this button will open popup window pre-populated with current address and title of the popup will be **Edit Address** – **Figure 6**

The screenshot shows the M&S website's 'Personal Details Form'. The header includes the M&S logo, a search bar with a 'Go' button, and a navigation menu with categories: STYLE & LIVING, WOMEN, LINGERIE, BEAUTY, MEN, KIDS (highlighted), HOME, and FOOD & WINE. The form itself is titled 'Personal Details Form' and contains the following fields and buttons:

- First Name:
- Last Name:
- Buttons: **Clear Address** and **Edit Address** (both in green)
- Post Code: and
- Address:
- City:
- Country:
- Submit:

Figure 5

The screenshot shows a 'Personal Details Form' with the following fields and values:

- First Name: My name
- Last Name: My last name
- Post Code: EC1A 2BX
- Address: aaa
- City: sss
- Country: aaa

An 'Edit Address' modal is open, showing the following fields and values:

- Address: aaa
- City: sss
- Country: aaa

Buttons visible include 'Clear Address', 'Find Address', 'Save', 'Cancel', and 'Submit'.

Figure 6

- 6) Post Code validation – Use the regular expression already in use for post code validation. Talk to your mentor regarding this.

The screenshot shows the M&S website header with the following elements:

- M&S logo
- Search bar with 'Search' and 'Go' buttons
- Navigation menu: STYLE & LIVING, WOMEN, LINGERIE, BEAUTY, MEN, KIDS, HOME

The 'Personal Details Form' is displayed with the following fields and values:

- First Name: First Name
- Last Name: Last Name
- Post Code: EC1A 2BX
- Address: Sds
- City: dssd
- Country: sds

Buttons visible include 'Clear Address', 'Edit Address', 'Find Address', and 'Submit'.

Figure 7

- 7) Clicking **Find Address** button will load a JSON file of addresses and those addresses will be displayed below the **Post Code** field. It should be in ul-li format inside a scrollpane.
